## Description :

Prsentation de l'diteurCarpenter's Guide to Innovative SAS Techniques offers advanced SAS programmers an all-in-one programming reference that includes advanced topics not easily found outside the depths of SAS documentation or more advanced training classes. Art Carpenter has written fifteen chapters of advanced tips and techniques, including topics on data summary, data analysis, and data reporting. Special emphasis is placed on DATA step techniques that solve complex data problems. There are numerous examples that illustrate advanced techniques that take advantage of formats, interface with the macro language, and utilize the Output Delivery System. Additional topics include operating system interfaces, table lookup techniques, and the creation of customized reports.Prsentation de l'diteurCarpenter's Guide to Innovative SAS Techniques offers advanced SAS programmers an all-in-one programming reference that includes advanced topics not easily found outside the depths of SAS documentation or more advanced

training classes. Art Carpenter has written fifteen chapters of advanced tips and techniques, including topics on data summary, data analysis, and data reporting. There are numerous examples that illustrate advanced techniques that take advantage of formats, interface with the macro language, and utilize the Output Delivery System. Additional topics include operating system interfaces, table lookup techniques, and the creation of customized reports.

**Biographie de l'auteur** Art Carpenter, an independent consultant and statistician, has been a SAS user since 1977. His impressive list of publications includes Carpenter's Complete Guide to the SAS REPORT Procedure; Carpenter's Complete Guide to the SAS Macro Language, Second Edition; Annotate: Simply the Basics; his co-authored Quick Results with SAS/GRAPH Software; and two chapters in Reporting from the Field. He also has served as the general editor of Art Carpenter's SAS Software Series. An Advanced SAS Certified Professional, Art has presented over eight dozen papers, posters, and workshops at SAS Global Forum, SAS Users Group International (SUGI) conferences, and various SAS regional conferences. Art has received several best-contributed-paper awards, and he has served in various leadership roles for local, regional, national, and international users groups, including conference chair and executive board member of SAS Global Forum.
