Description :

Prsentation de l'diteur
In recent years, China has grown to be a powerhouse in the world economy. Mandarin, Putonghua in Chinese, has always been the worlds most spoken language by sheer volume of native speakers but its value has also become especially important among foreigners and business professionals. With the ever increasing focus on international trade with China, Western interest in learning Chinese has grown exponentially. As a Chinese native speaker fluent in English, I have been translating, interpreting and teaching for many years. I have not always been satisfied with the available books and materials for teaching

Chinese to foreigners. Over the last several years I have tried, tested and perfected various lessons and techniques that apply well to Chinese studies. I have collected and now publish all of these modern techniques into books. One of the unique features in these books is the literal translation into English of common Chinese expressions and vocabulary. For example, you can often see lit. with the daily life topic sentences in BOOK 2, showing the direct translation of the Chinese text. This will reinforce an understanding of sentence structure and grammar which has proven to be instrumental in helping you retain the Chinese you have already learned. Other Chinese language books do not use this approach. In BOOK 2, Part 1 provides more grammar points which continue from BOOK 1. There are useful examples to help you grasp each of the grammar points. Part 1 is arranged in such a way that any topic in this part can be studied independently. Upon completion of this book, you will attain not only mastery of Chinese grammar and vocabulary, but also an expanded knowledge of Chinese writing. NOTE: After you have learnt Pinyin (initials, finals and tones) in Part 1 of BOOK 1, you are ready to continue studying any of the books within the Modern Chinese series BOOK 1, 2, 3 and 4.

Biographie de l'auteur After graduation from University in 2009, Vivienne worked as a freelance interpreter for many international companies such as Huawei, Samsung, Apple, Mercedes, Siemens, Areva, Peugeot, and others. In 2010, Vivienne decided to fully dedicate herself to teaching Chinese language to foreign expats employed at those same multi-national companies where she worked as an interpreter before. In 2012, based on the success of her teaching, Vivienne wrote a series of books that teach Chinese using her unique learning methods. These techniques have become very popular among her students and readers.
