Description :

Prsentation de l'diteur
A butterfly the color of my name did tell me that a Big Spin was coming our way. I was standing by Mr. Grants wisteria, which hung over his fence and down into our yard, when Ruby Butterfly, this jeweled metamorphosis of a cattypillar, landed on a bright green wisteria leaf like some kind of winged oracle and looked straight at me; we exchanged glances, you know the way liked-minded and soul-bodied creatures can. We understood each other down deep to our transfigured and transforming cellular parts, and I knew the Big Oaks had told Ruby Butterfly and now she was letting me in on the not-so-secret secret: a storm was coming.
Revue de presse"YA readers will be drawn by Ruby's story--both her personal

story and the community's story of survival."--KLIATT" Antieau offers a complex, personal account of Katrina and her aftermath, compounding the horror of the storm with the details of individual tribulations.

Readers will feel the vulnerability and despair of the communities affected by the storm, as well as the strength with which survivors faced it down. Rubys atmospheric narrative is as dense and pungent as the bayou, her words an honest expression of her unique world view, and a clue to the long-sought secrets of her past."--Booklist
