Description :

Prsentation de l'diteurSarah and Jack have never doubted that they are made for each other. But there is someone in Sarah's family who will not tolerate the relationship. The reason lies in both the past and the present, and it will take Sarah across an ocean to a place she never imagined she would be. Kate Grenville takes us back to the Australia of The Secret River in this novel about love, tangled histories and how it matters to keep stories alive.Revue de presse'I was thrilled to find myself back beside the river I'd come to know so well in The Secret River. The power with which Kate Grenville's evokes places and people is so remarkable that I could remember the smell of the air there - and it was no surprise to discover that Sarah Thornhill's story is as gripping and illuminating as her father's was' --Diana Athill'Here is someone who can

really write' --Peter Carey'A beautifully uplifting piece of fiction' -- Independent'A graceful, passionate story of love, loss and treacherous family histories' -- Marie Claire'Grenville inhabits characters with a rare completeness ... She writes with a poet's sense of rhythm and imagery' -- Guardian'Be warned: [Sarah Thornhill] will wrench your heart ... Grenville's description of the harshly beautiful Australian landscape is unforgettable, more poetry than prose' -- Guardian'Both brilliant fiction and illuminating personal history' -- Arifa Akbar, The Independent'Her voice has an attractive personality and proves adept at describing the landscape and those who struggle to survive in its unforgiving beauty' -- The Daily Telegraph'Kate Grenville has completed her trilogy with another enthralling tale' -- Ion Trewin, Sunday Express'Richly wrapped in language so colourful and lively, you can taste it' -- Tom Adair, The Scotsman'It is with often marvellous vividness and clarity that Grenville evokes Sarah's world [she] is well inhabited by her creator, and through the eyes of this young woman, the physical and cultural strangenesses of a nation still clambering into existence spring richly to life' -- Belinda McKeon, Guardian'Grenville has once again vividly captured a world of conflict, change and a clash of cultures. This extremely enjoyable novel can be read alone or as part of the trilogy --Good Book Guide'Presentation de l'auteurSarah and Jack have never doubted that they are made for each other. But there is someone in Sarah's family who will not tolerate the relationship. The reason lies in both the past and the present, and it will take Sarah across an ocean to a place she never imagined she would be. Kate Grenville takes us back to the Australia of The Secret River in this novel about love, tangled histories and how it matters to keep stories alive.
