## Description :

Prsentation de l'diteur"With the inclusion of so many finely wrought details about daily life, the novel acts as a window into another part of the world, adding much-needed context to lives that could very well parallel those featured in blood-soaked headlines. The novel excels at highlighting everyday moments of resistance to terrorism, violence, and extremism, practiced one brave act at a time, that mainstream journalism ignores but that fiction persists in exposing. The Bubble Kids is a completely engrossing and refreshing read. Clarion s Chowdhry does a very good job of conveying the kids complex sets of circumstances as she paints a vivid portrait of innocent Pakistani people facing the terror of a fringe, fundamentalist group. This is a

perspective not often seen, and the author balances its elements well by using characters from diverse backgrounds. A well-balanced and often powerful story recommended for younger teens and history buffs.

Having traveled and lived in many parts of the world, she has had the opportunity to observe children in many different cultures. She believes that for the greater part, children anywhere in the world share similar moral values and innocence; free of biases at that young age, they have the power to change our world for the better. After the events of 9/11 occurred, Chowdhry gained a unique perspective on the inner conflicts that were evoked within her fellow Pakistanis during this challenging period and how they chose to deal with it. She began to write the young adult fiction novel The Bubble Kids, an inspiring story about young Pakistani kids affected by terrorism.
