This edition has been corrected for spelling and grammatical errors.Revue de presse"Are they needed? To be sure. The Darwinian industry, industrious though it is, has failed to provide texts of more than a handful of Darwin's books. If you want to know what Darwin said about barnacles (still an essential reference to cirripedists, apart from any historical importance) you are forced to search shelves, or wait while someone does it for you; some have been in print for a century; various reprints have appeared and since vanished." --Eric Korn, Times Literary

Supplement "Historians, scientists, historians of science, and their students all have reasons to appreciate the care that went into editing and publishing *The Works of Charles Darwin*." --Muriel L. Blaisdell, Isis
